About the program

Pakistan Institute for Corporate Governance (PICG) in collaboration with The International Finance Corporation (IFC) is pleased to announce a training on ESG and Sustainability for Board Directors. This comprehensive training aims to enhance the understanding of ESG and sustainability principles and support the implementation of effective strategies to drive business growth and resilience.

This training focuses on new elements and approaches that distinguish ESG and sustainability from classic corporate governance. Through interactive methods, including case studies, discussions, and strategic action planning, participants will gain practical knowledge and tools to implement an integrated ESG approach in their own companies.

By participating in this training, you will

◆ Gain clarity on ESG and sustainability principles and their impact on business

◆ Develop practical skills to implement ESG strategies and enhance board effectiveness

◆ Enhance your understanding of ESG materiality assessment, integration into control environment & stakeholder engagement

◆ Learn how to assess the board's sustainability readiness and implement effective climate governance

PICG
Pakistan Institute of Corporate Governance
